

DYNACLEAR CBT *General purpose polyolefin shrink film*

<i>Optical and Mechanical Properties</i>	
Extremely Tough, multi-layer polyolefin	Puncture resistant
Strong seals and memory	Unmatched clarity, gloss and sheen
Package will stay taut and wrinkle-free	Won't crack due to weather fluctuations
Runs on a variety of equipment	

DESCRIPTION

DYNACLEAR CBT is a heat shrinkable, multilayer, co-extruded film, extremely versatile, polypropylene and polyethylene based for universal use. It works on all types of shrink packaging machines manual, semiautomatic and automatic. Thanks to its performance and appearance this product meets the most sophisticated requirements. It is particularly suitable for "display" products
