

PRO PACK GROUP

Dynaclear® CBT and Ultra are Recyclable

*Wal-Mart CEO Lee Scott and many communities are insisting on Recyclable packaging and Pro Pack Group delivers.

According to the Environmental Protection Agency, packaging material generates 31% of all waste. Much of this winds up in our landfills unnecessarily.

Unlike most Shrink Film our **Dynaclear® CBT** and **Ultra** are recyclable. In an effort to reduce the waste that ends up in our Landfills we are clearly marking our boxes and cores with the logo shown to the left.

Dynaclear® CBT and **Ultra** are friendly to the environment!
